

**2015 d'ARENBERG THE NOBLE
BOTRYOTINIA FUCKELIANA**

Review Summary

91 pts “Intensely sweet cumquat and canned fruit.”

James Halliday
Australian Wine Companion
2017

90 pts “This is the scientific name of botrytis cinerea, or so Chester Osborn would have us believe. It’s a fresh, clean and fruity Adelaide Hills style of peach, apricot, tropical fruits, marmalade and honey, holding its sweetness effortlessly.”

Tyson Stelzer
Wine Business Monthly
November 2016
