

2017 GIANT STEPS YARRA VALLEY CHARDONNAY

Review Summary

93 pts “This is the midpoint for Giant Steps, halfway up the price and quality ladder, but could stand as an emblem of Yarra Valley chardonnay at its price. For those wondering about the (no) mlf, look at the final titratable acidity of 7.39g/l and the pH of 3.16. This is a delicious, hands-off chardonnay, fresh white peach fruits its cornerstone.”

James Halliday

2019

90 pts “Blended from the winery’s estate vineyards, the 2017 Chardonnay is a terrific reflection of the winemaking style here, showing positive hints of struck match, subtle toasted grain and butter notes, plus pear and melon aromas. It’s medium-bodied and crisp, with a silky texture and expanding citrusy notes that take over on the long finish.”
