

## OLD BRIDGE CELLARS' PHILOSOPHY

In this age of 'big company' buyouts, increasing consolidation and mass production, Old Bridge Cellars brings to you a group of fiercely independent winemakers who retain their belief in artisan winemaking. Coming to know their land through the generations before them, they have an intuitive understanding, quiet confidence and desire to produce only the best they can from each vintage. In standing resolute behind their own style, they've established themselves as regional pioneers, benchmarks and leaders alike, universally acclaimed by wine critics across the globe.

Representing these highly sought after, compelling wines since 1990, Old Bridge Cellars has become the US importer of choice for iconic Australian wines. In fact, our allegiance to fine wine and regional expression has been recognized in such publications as The Wine Advocate, Wine Spectator, Wine & Spirits, International Wine Cellar and Wine Enthusiast. Robert Parker of The Wine Advocate has gone so far as to say, *"thanks in large part to the work of such talented importers as Old Bridge Cellars et al, American consumers have never had such an enormous selection of Australia's finest as well as rarest wines."*

Our portfolio is anchored in Australia, yet also reaches internationally through long standing relationships with vintners in many of the world's most applauded winemaking regions. Our parameters remain, simply, that the wineries we represent are true to their regions and true to themselves. They necessarily share a deep commitment to good land stewardship, preserving their independence, and respecting their regional heritage, all the while embracing the international wine world as their quality yardstick.

We see as our mission the championing of these winemakers who give everything in their pursuit of truly distinctive, regionally defined styles that sit comfortably with the world's best. And who believe they can do it even better the next vintage!

It's an enlightening, exhilarating journey. Welcome aboard.
