2021 DEVIL'S CORNER

PINOT NOIR

WINEMAKER: Joel Tilbrook & Tom Wallace

REGION: Tasmania VARIETALS: Pinot Noir **MATURATION:** Stainless steel 12.5% alc/vol **ANALYSIS:**

CLIMATE: The East Coast of Tasmania exhibits classic cool climate with cold nights and warm, mild days. The nearby maritime influence provides valuable protection from extreme weather, reducing risk of destructive frosts in the growing period. Generally, the weather runs from the west leaving Devil's Corner's vineyard in a rain shadow for much of the year allowing for near perfect growing conditions.

WINEMAKING: Devil's Corner's Hazard Vineyard located on Tasmania's East Coast is the primary source for the Pinot Noir. This is a wine all about creating a light, bright, soft, fruit-forward Pinot Noir so the grapes are picked quite early to retain their freshness. Very little cold soak and just whole berry ferments in static fermenters using an air maceration technique that allows gentle extraction of color and tannins without overpowering the wine. Vegan-friendly.

TASTING NOTES: A brightly colored Pinot Noir with youthful purple tones. A strongly perfumed aroma redolent of spicy black cherry, dark fruits and hints of raspberries. The wine displays a juicy, sweet-fruit middle palate with soft, ripe tannins and fresh acidity. Made in a drink-now style with generous flavors.

CRITICAL ACCLAIM: Not yet rated. Past vintages: 92 pts Robert Parker Wine Advocate, 92 pts/Editors' Choice Wine Enthusiast

ABOUT DEVIL'S CORNER: Devil's Corner, on Tasmania's East Coast, is one of the wildest and relentless environments on Earth. The name comes from intrepid sailors who, while navigating Tasmania's Tamar River, discovered a treacherous bend and named it Devil's Corner. Beyond the tumultuous reach, they found an amazing sanctuary where still waters rewarded their impressive navigational efforts. Today it is home to some of the most stunning vineyards in Tasmania. Devil's Corner holds a special kind of adventurous spirit that doesn't fight against the extreme elements. Instead, they've learned when to lean into them, and when to wait, in order to make the highest quality, approachable cool climate wines.
