

2022 JASPER HILL EMILY'S PADDOCK SHIRAZ

WINEMAKER: Ron Laughton
REGION: Heathcote, Victoria
VARIETALS: 95% Shiraz, 5% Cabernet Franc
MATURATION: French oak barriques for 15 months
ALCOHOL: 15.0% alc/vol

WINEMAKING: Georgia's and Emily's Paddocks yield fruit with a personality as distinct as each of Ron and Elva's two daughters, thus winemaking focuses on preserving these inherent flavors. Though "minimal intervention" is widely touted in the industry, the Laughtons are serious practitioners, adopting an old-fashioned, "less is more" approach. Common acid adjustments are not necessary in the Laughton winery, nor are additions of yeast or nutrients. Ferments run their natural course without cooling, malolactic fermentation occurs spontaneously and none of the Jasper Hill wines undergo fining prior to bottling in their on-site bottling-line. Put simply, these wines make themselves; they are a pure expression of terroir, as unique as the land on which they were grown.

TASTING NOTES: A vibrant red/blue color hints at what is to come! The usual perfumed aromas are followed by an extremely full and complex palate of blackberry, red currant and lightly minted cola. Impeccable tannins and natural acidity in abundance, finishing with the hallmark great length. Possibly a little more approachable as a young wine than recent vintages, but just as cellarable.

CRITICAL ACCLAIM: 95 pts Halliday Wine Companion, 94 pts James Suckling

ABOUT JASPER HILL: Established in 1975 by Ron and Elva Laughton, Jasper Hill produces some of Australia's most individual and compelling Shirazes. Situated in the Heathcote region of Central Victoria, the estate has been largely responsible for establishing this area as one of Australia's greatest red wine regions. The 60 acre property comprises three vineyards, two of which are named after Ron and Elva's daughters, Emily and Georgia; all are positioned on ancient Cambrian soils unique to this area. Beyond these exceptional sites, it is the Laughtons' commitment to low yields, dry farming and non-interventionist, biodynamic viticultural practices that place Jasper Hill among Australia's premier producers.
